

Fact Sheet for Pharm.D. Program for Humanities / Social Science Electives

This fact sheet is designed to give new students information to assist them in understanding how to choose courses that are acceptable as Humanities / Social Science Electives. ***Please keep this fact sheet for future reference.***

Overview

Students in the Class of 2018 and prior must take a total of six (6) courses in the humanities and/or social sciences. Students in the Class of 2019 and later must take a total of five (5) courses in the humanities and/or social sciences. Each course must be at least 3.0 credits in weight. One course must be either a Psychology or Sociology elective. *Elective credit will be given for the majority of courses offered through such departments as History, English, Psychology, Sociology, and Classics.*

Elective credit will not be given for . . .

- . . . any of the core or "hard" science departments such as, but not limited to, Biological Sciences, Chemistry, Geology, or Physics.
- . . . courses that are offered through the Departments of Mathematics or Computer Science.
- . . . any course offered in any other discipline that discusses drugs, medicinal or healthcare, healthcare topics, or healthcare related topics.
- . . . any course that involves diet, nutrition, or disease.
- . . . studio courses (that is, where a student plays an instrument, dances, draws, paints, or sculpts).
- . . . correspondence courses.
- . . . seminar courses except those offered through the Honors College Program.
- . . . internships or field work.

Foreign Language Courses

*Foreign Languages will satisfy a humanities/social science elective; **however** we require 2 years of one foreign language as an **admissions requirement** the School of Pharmacy. If you wish to continue studying that **same** language in college, you must start at a level higher than the equivalent two high school years of that language. One year of a foreign language in high school is equivalent to one semester in college. The following matrix is used to determine where to begin granting credit for foreign language coursework:*

Number of Years, High School	Equivalent Number of College Semesters	Starting Semester for Granting Credit
2 years	2 semesters	3 rd semester
3 years	3 semesters	4 th semester
4 years	4 semesters	5 th semester

Therefore, ***before you may continue your studies in that language, you must contact the department and request a language placement test.*** Based upon these test results, the department will place you into the appropriate course based upon your proficiency on the exam. Be aware that we will only accept the third semester course and nothing less, even if the department recommends that you receive degree credit.

For Further Information

If you are unsure of a course offered at Rutgers, be sure to seek advice from the Office of Academic Services located in Room 277A/B of the Pharmacy building. Office staff may be reached at (848) 445-6336. You can also reach the office via email academicservices@pharmacy.rutgers.edu.
