

Pharmacy Law Home Study for  
Pharmacists and Pharmacy Technicians

**“Preparing Your Pharmacy for a DEA Inspection”**

**UAN #0374-0000-17-031-H03-P-T**  
**effective 07-01-2018: UAN# JA0000855-0000-19-004-H03-P-T**  
**(Knowledge-Based CPE Activity)**

**No sponsorship was received for this law program**

**Program Goal and Objectives**

The purpose of this home study activity is to provide comprehensive education for pharmacists and pharmacy technicians on the topic of the Drug Enforcement Administration, diversion, and their audits regarding controlled dangerous substances (CDS). The audience will learn the issues facing pharmacists and the top audit areas. The at-risk areas for CDS is discussed and proper protocol is addressed in detail. The participant will know the schedule II substances dispensing requirements and the NJ opioid law. As the pharmacist, they are responsible to ensure the CDS are for a valid medical purpose. Emergency dispensing and partial filling of CDS prescriptions is explained. Also, in this activity, electronic, invalid, and illegitimate prescription procedures are described. The pharmacist will also learn of the updated regulations starting with their 2019 biennial license renewal to complete one (1) credit of CE program on the topic of opioid drugs.

At the completion of this program, the pharmacist participant will be able to: discuss the common elements of a DEA audit; explain the legal ramifications of a DEA audit, including potential civil, criminal, and administrative penalties; discuss the legal rights and responsibilities of the pharmacy undergoing a DEA audit; and identify good practices that will help simplify the audit process.

At the completion of this program, the pharmacy technician participant will be able to: recognize the breadth and scope of the drug diversion problem; describe common types of drug diversion schemes; define good practices that will help secure control substances; and explain statutory record keeping requirements.

**Continuing Education Credit**

**Release Date:** 08/02/2017

**Expiration Date:** 08/02/2018 No credit will be give after the expiration date

**Fee:** The fee for this educational activity is \$20

**Program Audience:** Registered Pharmacists and Pharmacy Technicians

JOINTLY ACCREDITED PROVIDER™  
INTERPROFESSIONAL CONTINUING EDUCATION

In support of improving patient care, Rutgers Biomedical and Health Sciences is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

This program is approved for 0.10 CEU (1.00 contact hour) law continuing education credit. In order to receive 1.00 law contact hour of CE credit, the participant must read the slides, complete the post-test questions with at least a score of 70% and complete the on-line evaluation. If participant fails first time, may retake the post-test questions at an additional fee of \$20. Continuing education credits (paperless) can be viewed at [www.MyCPEmonitor.net](http://www.MyCPEmonitor.net) two weeks after passing the post-test questions. The Universal Activity Number is 0374-0000-17-031-H03-P-T. Effective 07-01-2018 the Universal Activity Number is JA0000855-0000-19-004-H03-P-T.

effective 07-01-2018: UAN# JA0000855-0000-19-004-H03-P-T

(Knowledge-Based CPE Activity)

1. A pharmacist receives a prescription for Oxycodone 30 mg tablets. It is written for a five-day supply and the prescription states it is an initial prescription. On reviewing the prescription, the pharmacist notices that the patient’s address is missing. Which of the following is true?
  - A. The pharmacist may not fill the prescription since the address is incomplete
  - B. The patient’s address is not needed to fill the prescription
  - C. The patient’s address may be added without consultation with the prescriber
  - D. The pharmacist may add the patient’s address only after consultation with the prescriber
2. In addition to NJ, the NJ PMP can provide information relating to prescription filled in how many other states?
  - A. None
  - B. 2
  - C. 5
  - D. 7
3. A loss of controlled substance is considered significant if
  - A. Only if more than 5,000 units were lost
  - B. A potential thief has been identified
  - C. Only if the medication lost is a schedule II substance
  - D. None of the above
4. A voluntary surrender of a DEA registration by a practitioner is effective
  - A. Immediately
  - B. One week from the signature
  - C. In 72 hours
  - D. In 48 hours
5. Which of the following is true about the inventory records maintained by a pharmacy?
  - A. The inventory needs to note the date that it is taken, but not the time
  - B. It is sufficient to keep an oral recording of the inventory (e.g. on audio tape)
  - C. The pharmacy must maintain an exact count of all CIIIs
  - D. None of the above
