

## FALL 2021 GUIDANCE

In light of Governor Murphy's executive order in June the original policy for Fall 2021 has been removed. Courses may now eliminate the 100 student limit for face to face (in-person) sections and return classroom capacities to their pre-pandemic levels. The information below reflects the status of courses as of July 23, 2021.

The University has instructed us to plan for a traditional in-person/on-campus experience for Spring 2022.

### Specific Courses

#### P1 Courses – Required

**01:694:301 Introduction to Biochemistry** – this course is taught by the School of Arts and Sciences and will be offered online asynchronously. There will be 2 live review sessions each week that will be recorded and posted.

**\*30:715:307 Pharmaceutical Chemistry** – this course will be offered in-person but students may choose to attend online synchronously if they wish. Lectures will be posted on canvas shortly after each live lecture. Attendance will be optional. All weekly quizzes and exams will be held online via Canvas with Respondus LockDown Browser + Webcam Video monitoring. There will only be one section of the course. Students registered in sections 2 or 3 will be changed to section 1 by the end of the summer.

**\*30:718:304 Pathophysiology** – this course will be offered in-person but students may choose to attend online synchronously if they wish. Lectures will be posted on canvas shortly after each live lecture. Attendance is optional.

**\*30:725:320 Foundations Of Pharmacy Care** – lectures will be posted for online for asynchronous review. Each Friday will be a live Zoom session for students to present drug monographs.

**30:721:301 Introduction To Pharmaceutics And Lab** - course will meet online and will be asynchronous lectures. The lab will also be online and will be asynchronous. Exams/quizzes for both class and lab will be synchronous.

**30:725:304 Leadership Entrepreneurship, Self-assessment Professionalism Seminar I** – the course will meet synchronously online. There will be four sessions and student will be assigned to attend one of the four sessions only once during the semester.

## **P1 Courses – Electives**

**30:725:482 Leadership In Pharmacy** – the course will meet in person with appropriate social distancing and mask required.

**30:725:350 Motivating Change As A Health Ambassador For Diabetes Mellitus** - the course will meet online and will be a mix of synchronous and asynchronous lectures. In addition, in person hands on activities will take place on specified dates following appropriate precautions.

**30:720:301 Introduction To Research** - the course will meet in person with appropriate social distancing and mask required.

**\*30:725:428 Hospital Pharmacy Practice Management** - course will meet online and will be a mix of synchronous and asynchronous lectures. In addition, in person hands-on activities may take place on specified dates following appropriate precautions. Students not local will participate via zoom for the in person hands-on activities.

\* Plan modified in light of change in status.
