

FALL 2021 GUIDANCE

In light of Governor Murphy's executive order in June the original policy for Fall 2021 has been removed. Courses may now eliminate the 100 student limit for face to face (in-person) sections and return classroom capacities to their pre-pandemic levels. The information below reflects the status of courses as of July 23, 2021.

The University has instructed us to plan for a traditional in-person/on-campus experience for Spring 2022.

Specific Courses

P2 Courses – Required

30:158:420 Pharmaceutical Microbiology – the lecture portion of the course will be online asynchronously. The recitation will be online synchronously.

***30:715:409 Medicinal Chemistry I** – this course will be offered in-person but students may choose to attend online synchronously if they wish. Lectures will be posted on canvas shortly after each live lecture. Attendance is optional. All weekly quizzes and exams will be held online via canvas with Respondus LockDown Browser + Webcam Video monitoring. There will only be one section of the course. Students registered in sections 2 or 3 will be changed to section 1 by the end of the summer.

***30:720:440 Pulmonary Pharmacotherapy** – this course will be offered in-person but students may choose to attend online synchronously if they wish. Lectures will be posted on canvas shortly after each live lecture. Attendance is optional. There will only be one section of the course. Students registered in sections 2 or 3 will be changed to section 1 by the end of the summer.

***30:720:441 Hematology Pharmacotherapy** – this course will be offered in-person but students may choose to attend online synchronously if they wish. Lectures will be posted on canvas shortly after each live lecture. Attendance is optional.

***30:720:442 Cardiology Pharmacotherapy** – this course will be offered in-person but students may choose to attend online synchronously if they wish. Lectures will be posted on canvas shortly after each live lecture. Attendance is optional. There will only be one section of the course. Students registered in sections 2 or 3 will be changed to section 1 by the end of the summer.

30:725:404 Leadership, Entrepreneurship. Self-assessment Professionalism Seminar III – the course will meet online asynchronously

30:725:432 Integrated Pharmacotherapy Assessment Skills Series II – the course will meet online with a mix of synchronous and asynchronous.

***30:725:470 Medical Literature Evaluation & Application** - this course will be offered in-person but students may choose to attend online synchronously if they wish.

P2 Courses – Electives

30:158:409 Pharmacogenomics And Precision Medicine Pharmacy – the course will meet in person with appropriate social distancing and mask required.

***30:725:350 Motivating Change As A Health Ambassador For Diabetes Mellitus** - course will meet online and will be a mix of synchronous and asynchronous lectures. In addition, in person hands on activities will take place on specified dates following appropriate precautions.

30:720:301 Introduction To Research - the course will meet in person with appropriate social distancing and mask required.

***30:725:428 Hospital Pharmacy Practice Management** - course will meet online and will be a mix of synchronous and asynchronous lectures. In addition, in person hands-on activities may take place on specified dates following appropriate precautions. Students not local will participate via zoom for the in person hands-on activities.

30:725:427 Community Pharmacy Practice Management - the course will meet in person with appropriate social distancing and mask required.

30:715:451 Research Techniques In Medicinal Chemistry – the course will meet in person with appropriate social distancing and mask required.

30:725:341 Economic Modeling Of Pharmaceuticals And Other Health Interventions – the course will meet online synchronously

31:725:583 Pharmaceutical Marketing - the course will meet in person with appropriate social distancing and mask required.

* Plan modified in light of change in status.

Period	Monday	Tuesday	Wednesday	Thursday	Friday
1 8:40 - 10:00 * 8:55 - 9:50	8:40 – 10:00 AM Pharmaceutical Microbiology 30:158:420:01 Dr. Fang Liu Online asynchronously		9:00 – 9:55 AM Pharmaceutical Microbiology 30:158:420:01 RECITATION Dr. Fang Liu Online synchronously	8:40 – 10:00 AM Pharmaceutical Microbiology 30:158:420:01 Dr. Fang Liu Online asynchronously	
2 10:20 – 11:40 * 10:35 – 11:30	11:10– 12:05 PM Medicinal Chemistry I 30:715:409:01 PH-130 Dr. Edmond LaVoie In-person and remote	9:10-10:30 AM Ipass 2 30:725:432:01 PH-135 Drs.
